Ask
Rita..

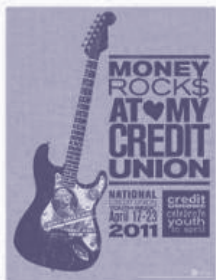

Q: How can I help my child save for the future?

A: Did you know that the best way to save for the future is to start saving for the future? It sounds so simple but children learn from example. By making regular deposits to a savings account of \$5.00 every other week will really add up. Not only will it add up to \$130.00 per year plus interest, but it will also teach children to continue that habit each time they get gift money, allowance or cash their paychecks.

It will add up faster than you realize!!

Become a Savings Rock Star At Health Care Credit Union

Its time to get your savings rockin'! Jam with us in April to celebrate Youth Month and amp up your savings.
